

# RUGGED SIAT GT-XTREME

HAND TOOL FOR PLASTIC STRAPPING

## OVERVIEW

The Siat GT-Xtreme hand tool is designed to tackle the most demanding plastic strapping applications with ease.

Whether you are working with flat or round surfaces, the GT-Xtreme delivers exceptional performance with its ergonomic Italian design and robust construction, built to withstand tough environments.

With advanced features and intuitive controls, the GT-Xtreme streamlines strapping operations while ensuring consistent, repeatable results across every shift.

## FEATURES & BENEFITS

- ▶ **INDUSTRY-PROVEN ERGONOMIC DESIGN**  
Compact, rugged construction with a non-slip handle for superior grip and comfort. Lightest tool in its class weighing only 8.8 pounds (4 kg).
- ▶ **HIGH-PERFORMANCE BATTERY**  
Lithium-Ion battery provides long-lasting power for up to 300 cycles per charge and the capability to deliver more than 500 charge/discharge revolutions.
- ▶ **INTUITIVE DIGITAL INTERFACE**  
Easily adjust operating mode, tension, welding time, and monitor battery level with minimal training.
- ▶ **RELIABLE AND INTELLIGENT**  
Brushless motor with encoder ensures uptime and accuracy while the exclusive Battery Management System (BMS) integrates the tool's control architecture with the battery to maximize performance.
- ▶ **FLEXIBLE**  
Suitable for a variety of strap sizes .625"/.750" (16mm/19mm) and materials (PP/PET), the GT-Xtreme adapts to different needs, from flat surfaces to round loads.

## WHY CHOOSE THE GT-XTREME

- ▶ **MAXIMIZES RELIABILITY**  
Built for maximum dependability, the GT-Xtreme ensures proper strap insertion and secure welds, reducing the risk of poor joints. With stainless steel components and a conical gearbox for improved performance, this tool delivers industry-leading reliability even in the toughest conditions.
- ▶ **STREAMLINES OPERATION**  
The bright, easy-to-read display allows operators to quickly adjust settings and monitor real-time tool status, ensuring the right tensioning force and welding time for every job. The convenient push button design makes starting the welding process simple, while the removable cover ensures fast and easy maintenance.
- ▶ **INCREASES PRODUCTIVITY**  
Engineered for high-speed operation, the GT-Xtreme features variable tension and weld time maximizing productivity and efficiency. The tool's brushless motor guarantees consistent, repeatable performance with minimal downtime, making it the ideal solution for high duty-cycle applications.
- ▶ **REDUCES OPERATOR FATIGUE**  
Designed with user comfort in mind, the GT-Xtreme's lightweight and perfectly balanced construction minimize operator fatigue. The non-slip rubber handle and ergonomic release lever further enhance ease of use, allowing for extended operation without strain.

### EASY BATTERY REMOVAL

### USB CONNECTION

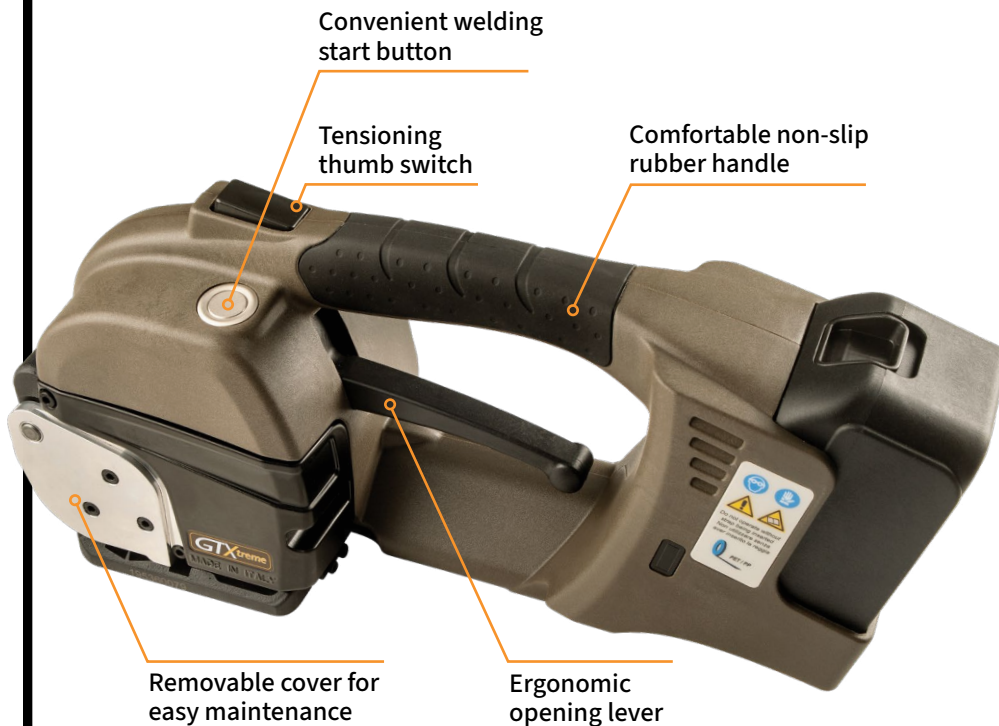

## SPECIFICATIONS

Package Type	Flat surface: minimum 5" (120 mm) Round surface: minimum 28" (700 mm) diam.
Strap Material	PET or PP
Strap Width	.625" / .750" (16 mm / 19 mm)
Strap Thickness	.030" (.7 mm) up to .050" (1.27 mm)
Max Tension on Single Strap	945 pounds (4,200 N)
Max Tension on Package	1890 pounds (8,400 N)
Max Tension Speed	30 ft/min (9 m/min)
Joint Type	Friction Weld
Weight	8.8 pounds (4 kg)
Battery	Akku Power SP5 18 Vdc 5 AH Li-Ion

## VISIBLE PARAMETERS

Three modes to better control strapping tension

Battery and charger included
