EZ-PRINT™ FLEXOGRAPHIC MACHINE

CUSTOM TAPE. FASTER. SMARTER. IN-HOUSE.

Unlock new revenue and brand-building opportunities with our compact flexographic tape printing machines — designed specifically for short-run customization and on-demand printing. Whether you're a distributor looking to increase margins or a print house seeking to offer branded tape as a value-added service, this solution makes short-run printing profitable, practical, and EZ.

Three color flexographic printing stations with quick adjustment

Exhaust suction system

Primer and Release coating stations with knurled aluminium pressure rollers to keep the tape in contact with the chemical solution also during high speed working cycles.

SIMPLE, SMART, AND ADAPTABLE

The Siat EZ-Print is designed specifically for custom printing packaging tape. Whether you need to print on plastic or water-activated paper substrates, EZ-Print™ delivers high-quality, durable, cost-effective branded tape rolls with precision, speed and efficiency.

Designed in Italy for international versatility, the Siat® EZ-Print™ wins with high print quality, color consistency, and machine uptime making your tape printing and converting both reliable and repeatable. The intuitive, automated machine requires minimal operator training, features short set-up/make-ready times, and produces less waste.

WHO IT'S FOR

TAPE DISTRIBUTORS

Offer in-house printing to eliminate lead times, reduce outsourcing, and upsell customers on premium branded tapes.

FLEXO PRINTERS

Expand into a new substrate using familiar technology with low capital investment and fast ROI.

CONTRACT PACKAGERS AND FULFILLMENT CENTERS

Deliver fully branded unboxing experiences with short-run, seasonal, or promotional tape – no MOQs or delays.

WHAT IT DOES

- Prints on most pressure-sensitive adhesive tapes in 3 or 4 colors
- Designed for short-run and medium-volume jobs
- Fast changeovers, minimal waste, and short setup times
- Delivers high-quality flexographic print results
- Compact footprint and user-friendly operation

WHY IT MATTERS

- BOOST MARGINS**
Add high-value customization without high cost or complexity
- SPEED UP DELIVERY**
Respond instantly to custom orders, seasonal promos, or urgent branding needs
- CONTROL THE PROCESS**
Eliminate outsourcing dependencies and keep production in-house
- STAND OUT**
Help your customers reinforce their brand with every package they ship

Razor blades slitting station cutting on the adhesive side of the tape.

Parts and technical support are just a click away at the online Combi parts store. Boost your business with a dynamic Siat® EZ-Print™ flexographic machine.
